Date of Examination : 15-06-2024

Time : 3 Hrs.

Max. Marks : 60

INSTRUCTION TO CANDIDATES :

1. All questions are **COMPULSORY**.
2. Q1, Q2 and Q3 carry **TEN** marks each.
3. Q4 and Q5 carry **FIFTEEN** marks each.

1. What do you mean by Communication? Discuss in detail, the types of Communication.
2. Explain in detail the barriers to communication. Also, suggest the ways to overcome these barriers.
3. **Paraphrase the following:**

The proliferation of smartphones have revolutionized the way people communicate and access information. With the advent of mobile technology, individuals can now connect with others instantly, regardless of their location. Smartphones serve as multifunctional devices, providing access to social media platforms, email, web browsing, and countless apps for entertainment and productivity. As a result, people have become increasingly reliant on their smartphones for daily tasks and communication, blurring the lines between work and leisure.

4. On the basis of your reading of the following paragraph, answer the questions:

The melting of polar ice caps due to global warming poses significant threats to both wildlife and human populations inhabiting coastal regions. As polar ice melts, sea levels rise, increasing the risk of flooding in low-lying areas and displacing communities. Furthermore, the loss of sea ice deprives species such as polar bears and seals of crucial habitat, leading to declines in their populations and disrupting entire marine ecosystems. Additionally, the influx of freshwater from melting ice alters ocean currents and salinity levels, affecting global climate patterns and exacerbating extreme weather events. Addressing the melting polar ice caps requires urgent action to mitigate greenhouse gas emissions, promote sustainable energy sources, and implement adaptation strategies for vulnerable communities.

1 | M-75085

(S17)-2162

Answer the questions:

00 MAY 202

- i) What are the primary threats posed by the melting of polar ice caps to both wildlife and human populations?
 - ii) How does the loss of sea ice impact marine ecosystems?
 - iii) What are some of the broader consequences of melting polar ice caps on global climate patterns and weather?
 - iv) What actions are suggested to address the issue of melting polar ice caps and its associated impacts?
 - v) **Write the meaning of the words:** deprives and exacerbating.
5. Write a report on the impact of urbanization on local ecosystems.
